

## **Instrument Technician – Thousand Oaks, CA**

Gabe, Inc.® is looking for an Instrument Technician who will be responsible for performing intermediate level calibration, maintenance, repair, installation, troubleshooting and documentation of instruments used on process control systems and building systems in utility plants, analytical labs and facilities suited and designed for material manufacturing and testing.

### **Position responsibilities:**

- Complete various quality system and safety documentation
- Work to be completed in a safe (in accordance to HRA, JHA, etc.), manner according to planning and predefined schedules with minimal impact to production while complying with GMP, SOP, CFR and Amgen regulations.
- Review and provide feedback on calibration and maintenance reports, forms, and records
- Revise, and review calibration, maintenance or other related procedures
- Provide regulatory and partner audit support
- Interpret electrical schematics, I/O wiring and panel drawings, Utility, process system/equipment, plumbing, ductwork, and HVAC P&ID's
- Interact with peers and clients in manufacturing, maintenance, utility plants, analytical labs and contracted services
- Perform general labor duties and may work in a variety of locations
- Participate in On-Call rotations for after-hours facility and manufacturing support and work outside of established shift hours upon short notice

### **Basic Qualifications**

- Associate's degree and 2 years of instrumentation/calibration experience
- OR
- High school diploma / GED and 4 years of instrumentation/calibration experience

### **Preferred Qualifications**

- Associate's degree in metrology, instrumentation, electronics, or related technical discipline
- 2+ years in an FDA (GMP) or similar regulated environment
- Knowledge of pneumatic, mechanical, and electronic instrumentation fundamentals, including process control loops, loop checks, loop tuning and troubleshooting computer based control systems (PLC, BMS, DCS, and various HMI)

- Experience with installation, troubleshooting, calibration, repair and testing of HVAC, laboratory and utilities instrumentation
- Intermediate knowledge of pneumatic, mechanical, and hydraulic fundamentals as well as intermediate skills in the use of power and hand tools in the building trades such as carpentry, plumbing, and electrical
- Effective oral and written communication skills
- A high mathematical understanding, excellent reading skills along with intermediate computer and typing skills

Gabe, Inc.® offers a competitive compensation and benefits package. Position is located at client site in client office/manufacturing space. Normal working hours are 8:00 a.m. to 5:00 p.m. Monday through Friday, however irregular working hours should be expected during project execution. Pay is hourly with overtime and is commensurate with qualifications and experience.
